DETAILED ACTION

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 8, 9, 16-18, 33, 34, 41-43, 54 and 59-61 are allowable over the prior art of record. The closest prior art of record Goldstein (US Publication Number 2004/0163009 A1), teaches a plurality of snapshot difference lists that indicate changes between each snapshot copy and a next snapshot copy, these difference lists being generated, however it fails to teach scanning the difference lists, these limitations being indicated in claim 8 as "scanning the indices for a sequence of the snapshot copies including the index for the specified older one of the snapshot copies", in claim 9 as "the method includes scanning the index for the specified younger one of the snapshot copies", in claim 16 as "the method includes scanning the meta bit map for the specified younger one of the snapshot copies", in claim 17 as "accessing the second index for the specified younger one of the snapshot copies to determine blocks of data in the production file system that are in use in the specified younger one of the snapshot copies", in claim 33 as "scanning the indices for a sequence of the snapshot copies including the index for the specified older one of the snapshot copies", in claim 34 as "scanning the index for the specified younger one of the snapshot copies", in claim 41 as "scanning the meta bit map for the specified younger one of the snapshot copies", in claim 42 as "accessing the second index for the specified younger one of the snapshot copies to determine blocks of data in the production file system that are in use in the

specified younger one of the snapshot copies”, in claim 54 as “scanning the indices for a sequence of the snapshot copies including the index for the specified older one of the snapshot copies”, in claim 59 as “scanning the indices for a sequence of the snapshot copies to determine the blocks that have changed between an older one of the snapshot copies and a younger one of the snapshot copies” and in claim 60 as “accessing the second index for the specified younger one of the snapshot copies to determine blocks of data in the production file system that are in use in the specified younger one of the snapshot copies”.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
